People who want to install WS2008 in clean state from fresh scratch can download the installation ISO using BT network.. With the RTM of Windows Vista and Windows Server 2008 SP2 version 6 0 6002 18005, the Windows Server 2008 with SP2 slipstreamed or integrated DVD ISO images are also been prepared by Microsoft.

Windows Server 2008 shares the same code base with Windows Vista, and that explains why a single is released for both operating system.
